- ... **CAD-drawings (2D- and partly 3D-STEP)** and
- ... various **documentations**

... are now available to download for the selected compressor/unit.

The GEA logo is rendered in a bold, black, sans-serif font. The letters 'G', 'E', and 'A' are interconnected by a thick, black, curved line that loops through the middle of the letters, creating a sense of motion and unity. The logo is centered horizontally and set against a bright, glowing white circular backdrop that fades into the surrounding blue background.

**GEA**
